

Modern National

## Building Product Information

Product Image

Product Name:

Product Identifiers :

Scope of use:

Modern National products are suitable for use with water supply systems that are mains pressure only, as per the NZ Building Code. All individual feature and benefits are listed by product on our website. Limitations and use is specified in the technical information on each individual product, and differs by product

Conditions of use:

Product Installation is recommended to be completed by a registered plumber. Installation must be in accordance with Modern National installation instructions as provided with every product. Regular maintenance is essential; clean and inspect the tapware frequently in accordance with cleaning instructions in the installation Instructions.

Relevant Building Code Clauses:

B2 Durability - B2.3.1 (c)  
F2 Hazardous building materials - F2.3.1  
G1 Personal Hygiene - G1.3.2  
G12 Water Supplies - G12.3.2, G12.3.5

Contributions to Building Compliance:

B2 - This product is a component of the plumbing services in a building and meets the Durability requirement of Nominated Building Elements for Plumbing & Pipe Fixtures of no less than 5 years when installed and maintained in accordance with installation instructions.  
F2 - This product is constructed of materials that will not emit harmful levels of substances from exposed surfaces  
G1 - This product complies with WELS regulation AS/NZ6400 and designed to facilitate sanitation.  
G12 - This product allows reasonable access to components likely to need maintenance; manufactured using components that will not contaminate the water; and pipes water to sanitary fixtures and sanitary appliances flow rates that are adequate for the correct functioning of those fixtures and appliances under normal conditions.
